

# K-12 CAMPS

AD EX is excited to continue and grow its architectural day camps for students – with workshops dedicated for the elementary, middle, and high school levels. The series is developed by practicing architects, in partnership with K-12 and nonprofit educators. Students will not only learn about career paths in architecture, design, and engineering, but also explore how to use design to become better stewards of their neighborhoods and champions for a more functional, beautiful, and equitable city. Our K-12 activities inspire, encourage, and educate students about architecture while highlighting the importance of creative problem solving. Spring, Summer, and Winter camps will be held in 2022.

## K-12 CAMPS
