

K-12 OUTREACH

DESIGNING MY FUTURE K-12 CAMPS

DESIGNING MY FUTURE is an architectural day camp program for K-12 students developed by practicing architects, in partnership with K-12 and nonprofit educators. Campers learn the basics of design thinking and apply them to real-world projects; they tour downtown landmarks and visit local firms to discover who builds the city; and they build confidence in expressing their ideas through writing, drawing, public speaking, and play. See calendar on page 3 for exact dates.
